

## CANADA GOOSE HOLDINGS INC.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For the fourth quarter and year ended March 28, 2021

*The following Management's Discussion and Analysis ("MD&A") for Canada Goose Holdings Inc. ("us," "we," "our," "Canada Goose" or the "Company") is dated May 12, 2021 and provides information concerning our results of operations and financial condition for the fourth quarter and year ended March 28, 2021 ("fiscal 2021"). You should read this MD&A together with our audited consolidated financial statements and the related notes for the year ended March 28, 2021 ("Annual Financial Statements"). Additional information about Canada Goose is available on our website at [www.canadagoose.com](http://www.canadagoose.com), on the SEDAR website at [www.sedar.com](http://www.sedar.com), and on the EDGAR section of the U.S. Securities and Exchange Commission (the "SEC") website at [www.sec.gov](http://www.sec.gov), including this Annual Report on Form 20-F.*

#### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This MD&A contains forward-looking statements. These statements are neither historical facts nor assurances of future performance. Instead, they are based on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, and other future conditions. Forward-looking statements can be identified by words such as "anticipate," "believe," "estimate," "expect," "forecast," "intend," "may," "plan," "predict," "project," "target," "potential," "will," "would," "could," "should," "continue," and other similar expressions, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts. They appear in many places throughout this MD&A and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, business prospects, growth, strategies, expectations regarding industry trends and the size and growth rates of addressable markets, our business plan and our growth strategies, including plans for expansion to new markets and new products, expectations for seasonal trends, and the industry in which we operate.

Certain assumptions made in preparing the forward-looking statements contained in this MD&A include:

- our ability to continue operating our business amid the societal and economic disruption caused by the novel coronavirus pandemic ("COVID-19");
- our ability to implement our growth strategies;
- our ability to maintain strong business relationships with our customers, suppliers, wholesalers, and distributors;
- our ability to keep pace with changing consumer preferences;
- our ability to protect our intellectual property; and
- the absence of material adverse changes in our industry or the global economy.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the “Risk Factors” section of our Annual Report and other risk factors described herein, which include, but are not limited to, the following risks:

- global disruptions, including the ongoing COVID-19 pandemic, significantly affecting numerous countries;
- additional potential or extended closures of our retail stores and the retail stores of our wholesale partners as a result of COVID-19 related restrictions imposed by local authorities;
- we may not open new retail stores or expand e-Commerce access on our planned timelines;
- we may be unable to maintain the strength of our brand or to expand our brand to new products and geographies;
- general economic conditions, including any further deterioration of economic conditions related to COVID-19 which may further affect discretionary consumer spending;
- unanticipated changes in the effective tax rate or adverse outcomes from audit examinations of corporate income or other tax returns;
- we may not be able to satisfy changing consumer preferences;
- our indebtedness may adversely affect our financial condition;
- we may not be able to compete in our markets effectively;
- we may not be able to manage our growth effectively;
- global political events, including the impact of political disruptions and protests;
- our ability to maintain relationships with our select number of suppliers and wholesalers;
- our ability to procure high quality raw materials and certain finished goods globally;
- our ability to forecast our inventory needs;
- we may be unable to protect or preserve our brand image and proprietary rights;
- our ability to manage our product distribution through our wholesale partners and international distributors;
- the success of our new store openings;
- the success of our continued expansion into Greater China;
- the success of our marketing programs;
- our ability to manage our exposure to data security and cyber security events;
- the risk our business is interrupted because of a disruption at our headquarters;
- fluctuations in raw material costs, interest rates and currency exchange rates; and
- we may be unable to maintain effective internal controls over financial reporting.

Although we base the forward-looking statements contained in this MD&A on assumptions that we believe are reasonable, we caution you that actual results and developments (including our results of operations, financial condition and liquidity, and the development of the industry in

which we operate) may differ materially from those made in or suggested by the forward-looking statements contained in this MD&A. Additional impacts may arise that we are not aware of currently. The potential of such additional impacts intensifies the business and operating risks which we face, and these should be considered when reading the forward-looking statements contained in this MD&A. In addition, even if results and developments are consistent with the forward-looking statements contained in this MD&A, those results and developments may not be indicative of results or developments in subsequent periods. As a result, any or all of our forward-looking statements in this MD&A may prove to be inaccurate. No forward-looking statement is a guarantee of future results. Moreover, we operate in a highly competitive and rapidly changing environment in which new risks often emerge. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make.

You should read this MD&A and the documents that we reference herein completely and with the understanding that our actual future results may be materially different from what we expect. The forward-looking statements contained herein are made as of the date of this MD&A, and we do not assume any obligation to update any forward-looking statements except as required by applicable laws.

## **BASIS OF PRESENTATION**

The Annual Financial Statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), and are presented in millions of Canadian dollars, except where otherwise indicated. Certain financial measures contained in this MD&A are non-IFRS financial measures and are discussed further under “Non-IFRS Financial Measures” below.

All references to “\$”, “CAD” and “dollars” refer to Canadian dollars, “USD” and “US\$” refer to U.S. dollars, “GBP” refer to British pounds sterling, “EUR” refer to euros, “CHF” refer to Swiss francs, “CNY” refer to Chinese yuan, “RMB” refer to Chinese renminbi and “HKD” refer to Hong Kong dollars unless otherwise indicated. Certain totals, subtotals and percentages throughout this MD&A may not reconcile due to rounding. This MD&A and the accompanying Annual Financial Statements are presented in millions of Canadian dollars.

Under an accounting convention common in the retail industry, the Company follows a 52-week reporting cycle, which periodically necessitates a fiscal year of 53 weeks with the fiscal year ending on the Sunday closest to March 31. Each fiscal quarter is 13 weeks. The additional week in a 53 week fiscal year is added to the third quarter. The Company's first 53 week fiscal year will occur in fiscal 2022. Fiscal 2021 comprises four fiscal quarters ending on June 28, 2020, September 27, 2020, December 27, 2020 and March 28, 2021. The Company has not adjusted financial results for quarters prior to fiscal 2020. In the Annual Financial Statements and in this MD&A, the term “fourth quarter ended March 28, 2021” refers to the 13 week period ended March 28, 2021 (91 days) and the term “fourth quarter ended March 29, 2020” refers to the 13 week period ended March 29, 2020 (91 days). The term “year ended March 28, 2021” refers to the 52-week period ended March 28, 2021 (364 days), the term “year ended March 29, 2020” refers to the 52-week period ended March 29, 2020 (364 days), and the term “year ended March 31, 2019” refers to the twelve months ended March 30, 2019 (365 days).

All references to “fiscal 2019” are to the Company’s year ended March 31, 2019; to “fiscal 2020” are to the Company’s year ended March 29, 2020; “fiscal 2021” are to the Company’s year ending March 28, 2021; and to “fiscal 2022” are to the Company’s year ending April 3, 2022.

## SUMMARY OF FINANCIAL PERFORMANCE

The following table summarizes results of operations for the years ended March 28, 2021, March 29, 2020 and March 31, 2019 and the fourth quarters ended March 28, 2021 and March 29, 2020, and expresses the percentage relationship to revenues of certain financial statement captions. See “Results of Operations” for additional details and for the comparison discussions between the years ended March 28, 2021 and March 29, 2020.

For the comparison discussions between the years ended March 29, 2020 and March 31, 2019, please refer to Item 5. “Operating and Financial Review and Prospects” of our Annual Report on Form 20-F for the year ended March 29, 2020, filed with the SEC on June 2, 2020, and is hereby incorporated herein by reference.

<sup>(1)</sup> See “Non-IFRS Financial Measures” for a description of these measures and a reconciliation to the nearest IFRS measure.

## Segments

Our reporting segments align with our sales channels: Direct-to-Consumer (“DTC”), Wholesale, and Other. We measure each reportable operating segment’s performance based on revenue and operating income. As at March 28, 2021, our DTC segment includes sales to customers through our 51 national e-Commerce markets and 28 directly operated retail stores across North America, Europe, and Asia. Through our wholesale segment, we sell to a mix of retailers, including major luxury department stores, outdoor specialty stores, individual shops, and to international distributors.

## Factors Affecting our Performance

We believe that our performance depends on many factors including those discussed below.

- *COVID-19 pandemic.* Globally, public health officials have imposed restrictions and recommended precautions to mitigate the spread of COVID-19, resulting in temporary closures of our retail locations as well as reduced traffic and store productivity, similarly impacting our wholesale partners. We have also experienced a significant reduction in the capacity of our supply chain, including our facilities, due to distancing measures. We expect to return to more normal levels of production as restrictions and recommended precautions are lifted. We will continue to leverage our subcontractor network to ensure supply is balanced with demand. These circumstances have had material adverse consequences on our results of operations for the year ended March 28, 2021 and are likely to negatively impact future fiscal periods as disruptions and prolonged consequences continue. The extent of the impact will depend on future developments, which are highly uncertain and out of our control, including, among others, the duration and intensity of the pandemic and the pace of roll-out of the vaccination programs.

During the fourth quarter of fiscal 2020, we temporarily reduced operating hours for our retail locations in Mainland China and closed our retail locations in North America and Europe. We began a gradual reopening of these locations during the first quarter of fiscal 2021 in accordance with guidance from local authorities, with all of our retail locations operating by the end of the second quarter of fiscal 2021. During the third and fourth quarters of fiscal 2021, 9 of 28 of our retail stores, representing 32% of network globally were temporarily closed due to government orders. The average durations of these closures were three weeks in the third quarter and eight weeks in the fourth quarter. As at May 12, 2021, 6 of 28 of our retail stores, representing 21% of our network, remain closed. We also temporarily closed our manufacturing facilities across Canada in March 2020, partially reopening them in April 2020 for the production of PPE. During the second quarter of fiscal 2021, we began a limited restart of the production of outerwear alongside PPE at all of our facilities, and all of our manufacturing facilities are currently in operation. It is possible that further closures may be required in the countries in which we operate, impacting our retail stores and manufacturing facilities as well as our wholesale partners.

In response to COVID-19, various government programs globally have been announced to provide financial relief for affected businesses. The most significant relief measure which the Company qualifies for is the Canada Emergency Wage Subsidy (“CEWS”) under the COVID-19 Economic Response Plan in Canada. For the year ended March 28, 2021, the Company recognized government subsidies totaling \$27.5m under this wage subsidy program and similar plans in other jurisdictions. These subsidies were recorded as a reduction to the associated wage costs which we incurred during the year ended March 28, 2021 and were recognized in cost of sales (\$13.5m), SG&A expenses (\$13.6m) and other costs (\$0.4m). We also received rent concessions in the form of abatements and deferrals and will consider seeking further rent relief as we continue to monitor the impact of COVID-19. Rent concessions of \$4.1m were recognized in the statement of income for the year ended March 28, 2021.

- *Growth investments.* In the early stages of the COVID-19 pandemic at the height of first wave retail closures, discretionary SG&A spend was reduced significantly. As distribution and sales recover, we expect to make significant SG&A investments ahead of revenue growth in certain areas, including brand and demand building, and this may continue going forward. We will be guided by our view of opportunities to deliver on our growth strategy.
- *Global political events and other disruptions.* We are conscious of risks related to social, economic, and political instability, including geopolitical tensions, regulatory matters, market volatility, and social unrest that are affecting consumer spending in certain countries and travel corridors. We have been, and may in the future be, impacted by widespread protests. To the extent that such disruptions persist, we expect that operations and traffic at our retail stores may be impacted.
- *Growth in our DTC Channel.* We plan to continue executing our global strategy through retail and e-Commerce expansion, though the scale of such expansion has been impacted and may be delayed due to COVID-19.
- *New Products.* We intend to continue investing in innovation and the development and introduction of new products across styles, uses, and climates. Additionally, we continue to sell Baffin branded footwear through Baffin's own distinct sales channels. We are also developing a separate Canada Goose footwear offering for cold weather which is planned for commercial launch in Fall / Winter 2021. We expect that certain new products may carry a lower gross margin per unit relative to our long-standing styles which are produced in significantly higher volumes.
- *Seasonality.* We experience seasonal fluctuations in our revenue and operating results and have historically realized a significant portion of our annual wholesale revenue during our second and third fiscal quarters, and our annual DTC revenue in our third and fourth fiscal quarters. We generated 74.0%, 77.9%, and 75.8% of our consolidated revenues in the combined second and third fiscal quarters of fiscal 2021, fiscal 2020, and fiscal 2019, respectively. Because of seasonal fluctuations in revenue and fixed costs associated with our business, particularly the headcount growth and premises costs associated with our expanding DTC channel, we typically experience negative and substantially reduced net income and adjusted EBIT<sup>(1)</sup> in the first and fourth quarters, respectively. As a result of our seasonality, changes that impact gross margin and adjusted EBIT<sup>(1)</sup> can have a disproportionate impact on the quarterly results when they are recorded in our off-peak revenue periods.

<sup>(1)</sup> *Adjusted EBIT is a non-IFRS measure. See "Non-IFRS Financial Measures" for a description of these measures.*

Guided by expected demand and wholesale orders, we typically manufacture on a linear basis throughout the fiscal year. Net working capital requirements typically increase as inventory builds. We finance these needs through a combination of cash on hand and borrowings on the Revolving Facility and the uncommitted loan facility in China (the "Short-term Borrowings"). Historically, cash flows from operations have been highest in the third and fourth fiscal quarters of the fiscal year due to revenue from the DTC channel and the collection of receivables from wholesale revenue earlier in the year.

- *Developments in international trade.* We continue to monitor the impact on our operations in Europe and the U.K. as a result of the British exit from the European Union ("Brexit"). Our preparations for Brexit included, among other activities, opening a third-party logistics facility early in fiscal 2021, advanced inventory staging in the U.K. in the event of disruptions to the flow of goods, and adding processes to utilize duty savings under the Canada-U.K. Continuity Trade Agreement. Duty savings continue for U.S. shipments under the United

States-Mexico-Canada Agreement. We continue to benefit from reduced tariffs on certain of our products imported into Europe under the Canada-European Union Comprehensive Economic and Trade Agreement which entered into force provisionally on September 21, 2017 and is pending ratification by certain EU countries. We monitor developments in international trade in countries where we operate that could have an impact on our business.

- *Foreign Exchange.* We sell a significant portion of our products to customers outside of Canada, which exposes us to fluctuations in foreign currency exchange rates. In fiscal years 2021, 2020, and 2019, we generated 67.9%, 62.3%, and 58.0%, respectively, of our revenue in currencies other than Canadian dollars. Historically, most of our wholesale revenue was derived from orders made prior to the beginning of the fiscal year. This high degree of visibility into our anticipated future cash flows from wholesale operations is now significantly less certain given the current economic environment. Most of our raw materials are sourced outside of Canada, primarily in U.S. dollars, and SG&A expenses are typically denominated in the currency of the country in which they are incurred. As part of our risk management program, we have entered into foreign exchange derivative contracts to manage certain of our exposures to exchange rate fluctuations for future foreign currency transactions, which is intended to reduce the variability of our operating costs and future cash flows denominated in local currencies. We continue to monitor our risk management program to take into account the prevailing global uncertainty of COVID-19.

We are exposed to translation and transaction risks associated with foreign currency exchange fluctuations on the Chinese renminbi denominated principal and interest amounts payable on our Short-term Borrowings and U.S. dollar denominated principal and interest amounts payable on our Revolving Facility and senior secured term loan facility (the “Term Loan Facility”). The Company has entered into foreign exchange cross-currency swap and forward contracts to hedge a portion of the exposure to foreign currency exchange and interest rate risk on the principal amount of the Term Loan Facility. See “Quantitative and Qualitative Disclosures about Market Risk - Foreign Exchange Risk” below.

The main foreign currency exchange rates that impact our business and operations as at and for the year ended March 28, 2021 and for the year ended March 29, 2020 are summarized below:

Currency	Foreign currency exchange rate to \$1.00 CAD					
	Fiscal 2021

<sup>(1)</sup> See “Non-IFRS Financial Measures” for a description of these measures and a reconciliation to the nearest IFRS measure.

## Revenue

Revenue for the year ended March 28, 2021 decreased by \$54.4m, or 5.7%, to \$903.7m from \$958.1m for the year ended March 29, 2020. On a constant currency<sup>(1)</sup> basis, revenue decreased by 6.8% for the year ended March 28, 2021 compared to the year ended March 29, 2020. Revenue generated from our DTC channel represented 58.4% of total revenue for the year ended March 28, 2021 compared to 54.8% for the year ended March 29, 2020.

CAD \$ millions	For the year ended		\$ Change			% Change	
	March 28, 2021	March 29, 2020	As reported	Foreign exchange impact	In constant currency <sup>(1)</sup>	As reported	In constant currency
DTC	528.2	525.0	3.2	(6.3)	(3.1)	0.6 %	(0.6)%
Wholesale	321.3	424.0	(102.7)	(4.3)	(107.0)	(24.2)%	(25.2)%
Other	54.2	9.1	45.1	(0.1)	45.0	495.6 %	494.5 %
Total revenue	903.7	958.1	(54.4)	(10.7)	(65.1)	(5.7)%	(6.8)%

<sup>(1)</sup> Constant currency revenue is a non-IFRS financial measure. See “Non-IFRS Financial Measures” for a description of this measure.

### DTC

Revenue from our DTC segment for the year ended March 28, 2021 was \$528.2m compared to \$525.0m for the year ended March 29, 2020. The increase of \$3.2m was driven by e-Commerce growth offset by net retail store declines. E-Commerce growth of 54% was driven by increases in United States, Great Britain, Mainland China, Canada and Germany. Retail revenue was negatively impacted by lower traffic, limited occupancy levels and reduced operating hours as well as government mandated closures for retail stores in Canada and Europe including during our peak selling season. Retail revenue declines were partially offset by growth from continued store expansion in Mainland China and North America.

### Wholesale

Revenue from our Wholesale segment for the year ended March 28, 2021 was \$321.3m compared to \$424.0m for the year ended March 29, 2020. The decrease of \$102.7m was due to the significant reduction in the planned order book relative to the comparative period primarily as a result of the impact of COVID-19.

### Other

Revenue from our Other segment for the year ended March 28, 2021 was \$54.2m compared to \$9.1m for the year ended March 29, 2020. The increase of \$45.1m was driven by \$47.1m of PPE sales in support of COVID-19 response efforts in fiscal 2021, partially offset by a decrease in sales to employees.

<b>Total revenue</b>	<b>903.7</b>	<b>958.1</b>	<b>(54.4)</b>	<b>(10.7)</b>	<b>(65.1)</b>	<b>(5.7)%</b>	<b>(6.8)%</b>

<sup>(1)</sup> Constant currency revenue is a non-IFRS financial measure. See “Non-IFRS Financial Measures” for a description of this measure.

Revenue decreased in Canada and the United States during the year ended March 28, 2021 compared to the year ended March 29, 2020 due to the impact of COVID-19 as described above. The decline in revenue was partially offset by higher revenue generated in Asia driven by the increase in DTC revenue, including growth of 48.7% in Greater China, and higher revenue generated in Europe and Rest of World driven by e-Commerce revenue. Revenue generated in Canada during fiscal 2021 included PPE sales of \$47.1m.

### Gross Profit (Loss)

Gross profit and gross margin for the year ended March 28, 2021 were \$554.0m and 61.3%, respectively, compared to \$593.3m and 61.9%, respectively, for the year ended March 29, 2020. The decrease in gross profit was attributable to the decline in revenue noted above. The decrease in gross margin was a result of a higher proportion of revenue from our Other segment, partially offset by a higher proportion of DTC gross margin.

CAD \$ millions	For the year ended				\$ Change	% Change
	March 28, 2021		March 29, 2020			
	Gross profit (loss)	Gross margin	Gross profit	Gross margin		
DTC	406.4	76.9 %	395.0	75.2 %	11.4	2.9 %
Wholesale	150.4	46.8 %	197.8	46.7 %	(47.4)	(24.0)%
Other	(2.8)	(5.2)%	0.5	5.5 %	(3.3)	(660.0)%
<b>Total gross profit</b>	<b>554.0</b>	<b>61.3 %</b>	<b>593.3</b>	<b>61.9 %</b>	<b>(39.3)</b>	<b>(6.6)%</b>

### DTC

Gross profit in our DTC segment was \$406.4m for the year ended March 28, 2021 compared to \$395.0m for the year ended March 29, 2020. The increase in DTC gross profit of \$11.4m was partially driven by the increase in segment revenue noted above. The DTC gross margin increased to 76.9% in the year ended March 28, 2021 from 75.2%. The increase in gross margin was attributable to favourable geographic shift to Asia and Europe and Rest of World (+90 bps), \$2.3m (+40 bps) of government subsidies and duty recovery related to 2019 shipments to China (+30 bps).

## Wholesale

Gross profit in our Wholesale segment was \$150.4m for the year ended March 28, 2021 compared to \$197.8m for the year ended March 29, 2020. The decrease in gross profit of \$47.4m was driven by the decline in segment revenue primarily as a result of COVID-19. Wholesale gross margin increased slightly to 46.8% in the year ended March 28, 2021 from 46.7%. The increase in gross margin was attributable to \$10.0m (+310 bps) of government subsidies offset by higher costs per unit as production levels were limited and impacted by COVID-19 safety protocols at our manufacturing facilities (-140 bps), and higher inventory provisions (-90 bps) and higher proportion of lower margin distributor sales (-90 bps) .

## Other

Gross loss in our Other segment was \$2.8m for the year ended March 28, 2021 compared to gross profit of \$0.5m for the year ended March 29, 2020. The decrease in gross profit to gross loss was attributable to \$4.3m of net overhead costs resulting from the temporary closure of our manufacturing facilities in the first quarter of fiscal 2021 due to COVID-19. PPE gross profit and gross margin were \$1.5m and 3.2%, respectively. Gross profit and gross margin from employee sales in our Other segment were flat for the year ended March 28, 2021 and \$0.5m and 5.5%, respectively, in the comparative period.

## SG&A Expenses

SG&A expenses were \$367.3m for the year ended March 28, 2021 compared to \$350.5m for the year ended March 29, 2020. The increase in SG&A expenses of \$16.8m or (4.8)% was attributable to \$16.3m of higher costs driven by e-Commerce, \$13.7m of incremental performance-based compensation, and \$8.5m of product development costs, partially offset by corporate initiatives to reduce costs across the business in response to COVID-19, and supplemented by \$13.6m of government subsidies.

CAD \$ millions	For the year ended					
	March 28, 2021		March 29, 2020		\$ Change	% Change
	Reported	% of segment revenue	Reported	% of segment revenue		
DTC	118.0	22.3 %	107.4	20.5 %	(10.6)	(9.9)%
Wholesale	43.8	13.6 %	49.9	11.8 %	6.1	12.2 %
Other	205.5		193.2		(12.3)	(6.4)%
Total SG&A expenses	<u>367.3</u>	<u>40.6 %</u>	<u>350.5</u>	<u>36.6 %</u>	<u>(16.8)</u>	<u>(4.8)%</u>

## DTC

SG&A expenses in our DTC segment for the year ended March 28, 2021 were \$118.0m, or 22.3% of segment revenue, compared to \$107.4m, or 20.5% of segment revenue, for the year ended March 29, 2020, an increase of \$10.6m, or 9.9%. The increase of \$10.6m, representing a 1.8% increase of SG&A expenses as a percentage of segment revenue, was attributable to \$14.0m of higher costs related to e-Commerce volume, \$2.3m of costs to support expanded e-Commerce platform, and \$1.6m of increased facility costs associated with our expanded retail network. Partially offsetting these higher costs were \$4.1m of savings from rent abatements and \$3.2m of government subsidies. COVID-19 related temporary store closure and pre-store opening costs of \$2.5m and \$2.2m, respectively, were recognized in the year ended March 28, 2021 compared to temporary store closure and pre-store opening costs of \$0.7m and \$2.1m, respectively in the year ended March 29, 2020.

### Wholesale

SG&A expenses in our Wholesale segment for the year ended March 28, 2021 were \$43.8m, or 13.6% of segment revenue, compared to \$49.9m, or 11.8% of segment revenue, for the year ended March 29, 2020, a decrease of \$6.1m or 12.2%. The decrease was attributable to \$3.3m of lower freight costs due to a reduction in volumes, \$2.1m lower warranty costs, and corporate initiatives to reduce costs in response to COVID-19, supplemented by \$1.4m of government subsidies.

### Other

SG&A expenses in our Other segment, which include unallocated corporate expenses, were \$205.5m for the year ended March 28, 2021 compared to \$193.2m for the year ended March 29, 2020. The increase of \$12.3m or 6.4% was driven by \$13.7m of higher performance-based compensation, \$8.5m of product development costs, and \$6.0m of incremental marketing costs. This was partially offset by corporate initiatives to reduce costs across the business in response to COVID-19, supplemented by \$9.0m of government subsidies.

### Depreciation and amortization

Depreciation and amortization was \$69.8m for the year ended March 28, 2021 compared to \$50.7m for the year ended March 29, 2020, an increase of \$19.1m. Of this increase, \$13.8m was driven by continued retail expansion and information technology-related expenditures to support growth. Depreciation expense on right-of-use assets of \$3.0m and \$5.0m was related to pre-store opening costs and COVID-19 temporary store closures, respectively, in the year ended March 28, 2021 compared to \$6.1m and \$1.0m of pre-store opening costs and COVID-19 temporary store closures in the year ended March 29, 2020, respectively.

CAD \$ millions	For the year ended		\$ Change	% Change
	March 28, 2021	March 29, 2020		
	Reported	Reported		
DTC	52.4	38.6	(13.8)	(35.8)%
Wholesale	3.8	2.8	(1.0)	(35.7)%
Other	13.6	9.3	(4.3)	(46.2)%
Total depreciation and amortization	69.8	50.7	(19.1)	(37.7)%

## Operating Income (Loss) and Margin

Operating income and operating margin were \$116.9m and 12.9% for the year ended March 28, 2021 compared to \$192.1m and 20.1%, respectively, for the year ended March 29, 2020. Operating income decreased as a result of reduced revenue described previously. Operating margin decreased due to a higher proportion of revenue from the Other segment, which carries a lower gross margin and higher operating costs. Operating income for the year ended March 28, 2021 included \$4.3m of net production costs due to the temporary closure of our manufacturing facilities in the first quarter of fiscal 2021 and \$7.5m of net temporary store closure costs, resulting from the impact of COVID-19.

CAD \$ millions	For the year ended					
	March 28, 2021		March 29, 2020		\$ Change	% Change
	Operating income (loss)	Operating margin	Operating income (loss)	Operating margin		
<b>Segment:</b>						
DTC	236.0	44.7 %	249.0	47.4 %	(13.0)	(5.2)%
Wholesale	102.8	32.0 %	145.1	34.2 %	(42.3)	(29.2)%
Other	(221.9)		(202.0)		(19.9)	(9.9)%
Total operating income	<u>116.9</u>	<u>12.9 %</u>	<u>192.1</u>	<u>20.1 %</u>	<u>(75.2)</u>	<u>(39.1)%</u>

### DTC

DTC segment operating income was \$236.0m for the year ended March 28, 2021 compared to \$249.0m for the year ended March 29, 2020. The decrease in operating income and margin of \$13.0m and 2.7%, respectively, were due to the impact of lower retail store revenues driven by COVID-19 and increased fixed costs related to operating 28 stores as at March 28, 2021 versus 20 as at March 29, 2020. These drivers were partially offset by e-Commerce revenue growth of 54%, which had higher operating profitability than retail stores. In addition, there were \$5.5m of government subsidies and \$4.1m of savings from rent abatements. COVID-19 related temporary store closure costs and pre-store opening costs of \$7.5m and \$5.2m, respectively, were recognized in fiscal 2021 compared to temporary store closure costs and pre-store opening costs of \$1.7m and \$8.2m in fiscal 2020, respectively.

### Wholesale

Wholesale segment operating income was \$102.8m for the year ended March 28, 2021 compared to \$145.1m for the year ended March 29, 2020. The decrease of \$42.3m in operating income was attributable to the decline in revenue, partially offset by cost reduction initiatives, supplemented by \$11.4m of government subsidies. The decline in operating margin reflects fixed cost deleverage as a result of lower revenue.

### Other

Other segment operating loss was \$221.9m for the year ended March 28, 2021 compared to \$202.0m for the year ended March 29, 2020. The increase in operating loss was attributable to higher operating costs including \$13.7m of higher performance-based compensation, \$8.5m of product development costs, and \$6.0m increase in marketing costs. In addition, there was \$4.3m higher depreciation and amortization expenses related to information technology-related expenditures to support growth. This was partially offset by corporate initiatives to reduce costs across the business in response to COVID-19, supplemented by \$10.2m of government subsidies.

### ***Net Interest, Finance and Other Costs***

Net interest, finance and other costs were \$30.9m for the year ended March 28, 2021 compared to \$28.4m for the year ended March 29, 2020. The increase was attributable to higher interest charges on the Term Loan Facility of \$5.7m due to the Refinancing Amendment (as defined further below under “Financial Condition, Liquidity and Capital Resources - Indebtedness - Amendment to the Term Loan Facility”) and corporate restructuring costs of \$1.7m in the year ended March 28, 2021, offset by the lower acceleration of unamortized costs in connection with the refinancing of the Term Loan Facility by \$5.9m from the comparative period. Excluding the impact of interest on lease liabilities of \$9.5m for the year ended March 28, 2021 and \$8.4m for the year ended March 29, 2020, interest charges increased by \$1.4m from the comparative period as a result of higher gross borrowings.

### ***Income Taxes***

Income tax expense was \$15.8m for the year ended March 28, 2021 compared to \$12.0m for the year ended March 29, 2020. For the year ended March 28, 2021, the effective and statutory tax rates were 18.4% and 25.4%, respectively, compared to 7.3% and 25.5% for the year ended March 29, 2020, respectively.

Given our global operations, the effective tax rate is largely impacted by our profit or loss in taxable jurisdictions relative to the applicable tax rates. The lower rate in the prior comparative period was due to a one-time change in tax law related to Swiss tax reform effective January 1, 2020 and the differences in tax rates in our foreign jurisdictions.

### ***Net Income***

Net income for the year ended March 28, 2021 was \$70.2m compared to \$151.7m for the year ended March 29, 2020, driven by the factors described above.

**For the fourth quarter ended March 28, 2021 compared to the fourth quarter ended March 29, 2020**

The following table summarizes results of operations and expresses the percentage relationship to revenues of certain financial statement captions.

## Revenue

Revenue for the fourth quarter ended March 28, 2021 was \$208.8m, an increase of \$67.9m, or 48.2%, from \$140.9m for the fourth quarter ended March 29, 2020. Revenue generated from our DTC channel represented 82.5% of total revenue for the fourth quarter ended March 28, 2021 compared to 81.1% for the fourth quarter ended March 29, 2020. Revenue generated from our DTC and Wholesale segments was impacted by the COVID-19 factors described below. On a constant currency<sup>(1)</sup> basis, revenue increased by 47.6% for the fourth quarter ended March 28, 2021 compared to the fourth quarter ended March 29, 2020.

CAD \$ millions	Fourth quarter ended		\$ Change			% Change	
	March 28, 2021	March 29, 2020	As reported	Foreign exchange impact	In constant currency <sup>(1)</sup>	As reported	In constant currency <sup>(1)</sup>
DTC	172.2	114.2	58.0	(1.0)	57.0	50.8 %	49.9 %
Wholesale	33.3	25.0	8.3	0.1	8.4	33.2 %	33.6 %
Other	3.3	1.7	1.6	—	1.6	94.1 %	94.1 %
Total revenue	208.8	140.9	67.9	(0.9)	67.0	48.2 %	47.6 %

<sup>(1)</sup> Constant currency revenue is a non-IFRS financial measure. See “Non-IFRS Financial Measures” for a description of these measures.

### DTC

Revenue from our DTC segment was \$172.2m for the fourth quarter ended March 28, 2021 compared to \$114.2m for the fourth quarter ended March 29, 2020. The increase of \$58.0m was driven by e-Commerce growth of 123.2% driven by significant increases in all existing major markets. Additionally, continued retail expansion and minimal retail disruptions in Mainland China more than offset retail declines due to reduced traffic and mandatory closures in North America and Europe. Refer to “Factors Affecting our Performance” for further details.

### Wholesale

Revenue from our Wholesale segment was \$33.3m for the fourth quarter ended March 28, 2021 compared to \$25.0m for the fourth quarter ended March 29, 2020. The increase of \$8.3m was driven by higher in-season orders relative to the comparative period.

### Other

Revenue from our Other segment was \$3.3m for the fourth quarter ended March 28, 2021 compared to \$1.7m for the fourth quarter ended March 29, 2020. The increase of \$1.6m was attributable to higher sales to employees from the comparative quarter.

## Revenue by geography

CAD \$ millions	Fourth quarter ended		\$ Change			% Change	
	March 28, 2021	March 29, 2020	As reported	Foreign exchange impact	In constant currency <sup>(1)</sup>	As reported	In constant currency <sup>(1)</sup>
Canada	39.2	42.1	(2.9)	—	(2.9)	(6.9)%	(6.9)%
United States	55.9	35.1	20.8	0.7	21.5	59.3 %	61.3 %
Asia	76.3	38.2	38.1	(0.8)	37.3	99.7 %	97.6 %
Europe and Rest of World	37.4	25.5	11.9	(0.8)	11.1	46.7 %	43.5 %
<b>Total revenue</b>	<b>208.8</b>	<b>140.9</b>	<b>67.9</b>	<b>(0.9)</b>	<b>67.0</b>	<b>48.2 %</b>	<b>47.6 %</b>

<sup>(1)</sup> Constant currency revenue is a non-IFRS financial measure. See “Non-IFRS Financial Measures” for a description of these measures.

Revenue increased across all regions except Canada for the fourth quarter ended March 28, 2021 compared to the fourth quarter ended March 29, 2020 resulting from an increase in DTC revenue, including growth of 100.6% in Greater China, which was significantly impacted by COVID-19 in the comparative quarter. The increase in revenue was partially offset by a decline in revenue primarily due to the prolonged store closures in Eastern Canada and Europe discussed in the COVID-19 factors described above.

### Gross Profit (Loss)

Gross profit and gross margin for the fourth quarter ended March 28, 2021 were \$138.6m and 66.4%, respectively, compared to \$93.6m and 66.4%, respectively, for the fourth quarter ended March 29, 2020. The increase in gross profit was attributable to higher revenue. Gross margin was flat with gains from a higher proportion of DTC revenue offset by margin declines in the DTC and Wholesale segments. This includes a \$4.1m increase in provisions for raw materials and finished goods for certain colours on the basis of Fall / Winter sales velocity.

CAD \$ millions	Fourth quarter ended				\$ Change	% Change
	March 28, 2021		March 29, 2020			
	Gross profit	Gross margin	Gross profit	Gross margin		
DTC	129.0	74.9 %	86.2	75.5 %	42.8	49.7 %
Wholesale	9.7	29.1 %	8.7	34.8 %	1.0	11.5 %
Other	(0.1)	(3.0)%	(1.3)	(76.5)%	1.2	(92.3)%
<b>Total gross profit</b>	<b>138.6</b>	<b>66.4 %</b>	<b>93.6</b>	<b>66.4 %</b>	<b>45.0</b>	<b>48.1 %</b>

### DTC

Gross profit in our DTC segment was \$129.0m for the fourth quarter ended March 28, 2021 compared to \$86.2m for the fourth quarter ended March 29, 2020. The increase in DTC gross profit was attributable to increased revenue noted above offset by higher inventory provisions (\$2.4m). The decrease in gross margin was driven by higher inventory provisions (-140 bps) partially offset by the favourable impact of pricing and volume mix (+90 bps) driven by parkas.

### Wholesale

Gross profit in our Wholesale segment was \$9.7m for the fourth quarter ended March 28, 2021 compared to \$8.7m for the fourth quarter ended March 29, 2020. The \$1.0m increase in gross

profit was attributable to revenue increases noted above offset by higher inventory provisions (\$1.7m). The decrease in gross margin driven by higher inventory provisions (-530 bps) was disproportionate due to seasonally lower Wholesale revenues.

#### *Other*

Gross loss and gross margin in our Other segment was \$0.1m and (3.0)%, respectively, for the fourth quarter ended March 28, 2021 compared to gross loss and gross margin of \$1.3m and (76.5)%, respectively, for the fourth quarter ended March 29, 2020. The \$1.2m decrease in gross loss is attributable to overhead costs resulting from the temporary closure of our manufacturing facilities due to COVID-19 in the comparative quarter of fiscal 2020.

#### **SG&A Expenses**

SG&A expenses were \$111.6m for the fourth quarter ended March 28, 2021 compared to \$95.9m for the fourth quarter ended March 29, 2020. The increase of \$15.7m or 16.4% was attributable to \$10.2m of higher performance-based compensation, \$6.8m higher marketing costs, \$5.4m increase in variable costs driven by e-Commerce volumes, and \$2.2m of product development costs. This was partially offset by \$10.1m of favourable foreign exchange fluctuations.

CAD \$ millions	Fourth quarter ended					
	March 28, 2021		March 29, 2020		\$ Change	% Change
	Reported	% of segment revenue	Reported	% of segment revenue		
DTC	38.2	22.2 %	30.7	26.9 %	(7.5)	(24.4)%
Wholesale	12.4	37.2 %	13.5	54.0 %	1.1	8.1 %
Other	61.0		51.7		(9.3)	(18.0)%
Total SG&A expenses	111.6	53.4 %	95.9	68.1 %	(15.7)	(16.4)%

#### *DTC*

SG&A expenses in our DTC segment for the fourth quarter ended March 28, 2021 were \$38.2m, or 22.2% of segment revenue, compared to \$30.7m, or 26.9% of segment revenue, for the fourth quarter ended March 29, 2020. The increase of \$7.5m was attributable to \$5.4m of higher costs related to e-Commerce volumes and \$2.3m of costs to support our expansion into new e-Commerce markets. COVID-19 related temporary store closure and pre-store opening costs of \$0.3m and \$0.3m, respectively, were recognized in the fourth quarter of fiscal 2021 compared to temporary store closure and pre-store opening costs of \$0.7m and \$0.2m, respectively, in the comparative quarter.

#### *Wholesale*

SG&A expenses in our Wholesale segment for the fourth quarter ended March 28, 2021 were \$12.4m, or 37.2% of segment revenue, compared to \$13.5m, or 54.0% of segment revenue, for the fourth quarter ended March 29, 2020. The decrease of \$1.1m or 8.1% was attributable to \$1.2m reduction in administration costs driven by corporate initiatives in response to COVID-19 and \$1.1m of lower warranty costs, which were partially offset by \$1.5m higher freight costs driven by incremental volume in the quarter.

## Other

SG&A expenses in our Other segment, which include unallocated corporate expenses, were \$61.0m for the fourth quarter ended March 28, 2021 compared to \$51.7m for the fourth quarter ended March 29, 2020. The increase of \$9.3m or 18.0% was attributable to \$10.2m of higher performance-based compensation, \$6.8m of incremental marketing costs and \$2.2m of product development costs. This was partially offset by \$10.1m of favourable foreign exchange fluctuations related to working capital and the Term Loan Facility, net of hedge impacts.

### Depreciation and amortization

Depreciation and amortization was \$19.2m for the fourth quarter ended March 28, 2021 compared to \$14.9m for the fourth quarter ended March 29, 2020, an increase of \$4.3m. Of the increase, \$2.5m was driven by continued retail expansion as well as information technology-related expenditures to support growth. Depreciation expense on right-of-use assets of \$0.1m and \$0.4m was related to pre-store opening costs and COVID-19 temporary store closures, respectively, in the fourth quarter ended March 28, 2021 compared to \$0.4m and \$1.0m of pre-store opening costs and COVID-19 temporary store closures, respectively, in the fourth quarter ended March 29, 2020.

CAD \$ millions	Fourth quarter ended		\$ Change	% Change
	March 28, 2021	March 29, 2020		
	Reported	Reported		
DTC	14.4	11.9	(2.5)	(21.0)%
Wholesale	1.2	0.7	(0.5)	(71.4)%
Other	3.6	2.3	(1.3)	(56.5)%
Total depreciation and amortization	19.2	14.9	(4.3)	(28.9)%

### Operating Income (Loss) and Margin

Operating income and operating margin were \$7.8m and 3.7% for the fourth quarter ended March 28, 2021 compared to operating loss and operating margin of \$17.2m and (12.2)% for the fourth quarter ended March 29, 2020. The increase in operating income was attributable to higher gross profit, partially offset by higher operating costs. The increase in operating margin reflects the positive impact of e-Commerce.

CAD \$ millions	Fourth quarter ended				\$ Change	% Change
	March 28, 2021		March 29, 2020			
	Operating income (loss)	Operating margin	Operating income (loss)	Operating margin		
<b>Segment:</b>						
DTC	76.4	44.4 %	43.6	38.2 %	32.8	75.2 %
Wholesale	(3.9)	(11.7)%	(5.5)	(22.0)%	1.6	29.1 %
Other	(64.7)		(55.3)		(9.4)	(17.0)%
Total operating income (loss)	7.8	3.7 %	(17.2)	(12.2)%	25.0	145.3 %

### DTC

DTC segment operating income was \$76.4m for the fourth quarter ended March 28, 2021 compared to \$43.6m for the fourth quarter ended March 29, 2020. The increase in operating

income and operating margin of \$32.8m and 6.2%, respectively, were attributable to the growth in e-Commerce of 123.2%, which had higher operating profitability than retail stores. This was partially offset by the impact of retail expansion and operating disruptions as a result of COVID-19. Pre-store opening costs and COVID-19 related temporary store closure costs of \$0.4m and \$0.7m, respectively, were recognized in the fourth quarter of fiscal 2021 compared to pre-store opening costs and COVID-19 related temporary store closure costs of \$0.6m and \$1.7m, respectively, in the fourth quarter of fiscal 2020.

#### *Wholesale*

Wholesale segment operating loss was \$3.9m for the fourth quarter ended March 28, 2021 compared to \$5.5m for the fourth quarter ended March 29, 2020. The decrease in operating loss and increase in operating margin of \$1.6m and 10.3%, respectively, were attributable to a higher gross profit and cost reduction initiatives.

#### *Other*

Other segment operating loss was \$64.7m for the fourth quarter ended March 28, 2021 compared to \$55.3m for the fourth quarter ended March 29, 2020. The increase in operating loss was attributable to higher operating costs including \$10.2m of higher performance-based compensation, \$6.8m of incremental marketing costs and \$2.2m of product development costs. This was partially offset by \$10.1m of favourable foreign exchange fluctuations related to working capital and the Term Loan Facility, net of hedge impacts.

#### ***Net Interest, Finance and Other Costs***

Net interest, finance and other costs were \$8.2m for the fourth quarter ended March 28, 2021 compared to \$4.5m for the fourth quarter ended March 29, 2020. The increase was driven by higher interest charges on the Term Loan Facility of \$3.3m. Excluding the impact of interest on lease liabilities of \$2.4m for the fourth quarter ended March 28, 2021 and \$2.1m for the fourth quarter ended March 29, 2020, interest charges increased by \$3.1m as a result of higher gross borrowings from the comparative quarter, specifically, on the Term Loan Facility which was refinanced in the third quarter of fiscal 2021, partially offset by a lower average interest rate.

#### ***Income Taxes***

Income tax recovery was \$3.3m for the fourth quarter ended March 28, 2021 compared to \$24.2m for the fourth quarter ended March 29, 2020. For the fourth quarter ended March 28, 2021, the effective and statutory tax rates were 825.0% and 25.4%, respectively, compared to 111.5% and 25.5% for the fourth quarter ended March 29, 2020.

Given our global operations, the effective tax rate is largely impacted by our profit or loss in taxable jurisdictions relative to the applicable tax rates. For the fourth quarter ended March 28, 2021, the effective tax rate was higher as a result of a recovery of non-deductible expense. For the fourth quarter ended March 29, 2020, the effective tax rate in the prior comparative year was higher than the statutory rate due to the one-time change in tax law related to Swiss tax reform effective January 1, 2020.

#### ***Net Income***

Net income for the fourth quarter ended March 28, 2021 was \$2.9m compared to \$2.5m for the fourth quarter ended March 29, 2020, driven by the factors described above.

## Quarterly Financial Information

<sup>(1)</sup> See "Non-IFRS Financial Measures" for a description of these measures and a reconciliation to the nearest IFRS measure.

Revenue in our wholesale segment is highest in our second and third quarters as we fulfill wholesale customer orders in time for the Fall and Winter retail seasons, and, in our DTC segment, in the third and fourth quarters. Our net income is typically negative in the first quarter and reduced in the fourth quarter as we invest ahead of our peak season.

### Revenue

Over the last eight quarters, revenue has been impacted by the following:

- the COVID-19 pandemic beginning in the fourth quarter of fiscal 2020;
- timing of store openings;
- launch and expansion of international e-Commerce sites;
- timing and extent of demand generation activities, including in-channel marketing;
- increased manufacturing flexibility through a shift to in-house production, which has an impact on the timing of wholesale order shipments and customer demand;
- timing of end-consumer purchasing in the DTC segment and the availability of new products;
- successful execution of global pricing strategy;
- shift in mix of revenue from wholesale to DTC, which has impacted the seasonality of our financial performance;
- shift in geographic mix of sales to increase sales outside of Canada;
- fluctuation of foreign currencies relative to the Canadian dollar;
- political disruptions in Hong Kong beginning in June 2019;
- protests in many North American cities beginning in the first quarter of fiscal 2021; and

- PPE production beginning in the first quarter through to the third quarter of fiscal 2021.

#### *Net Income (Loss)*

Over the last eight quarters, net income (loss) has been affected by the following factors:

- impact of the items affecting revenue, as discussed above;
- costs incurred and relief received from government programs as a result of the COVID-19 pandemic beginning in the fourth quarter of fiscal 2020;
- increase and timing of our investment in brand, marketing, and administrative support as well as increased investment in property, plant, and equipment and intangible assets to support growth initiatives;
- increase in fixed SG&A costs associated with our business, particularly the headcount growth and premises costs associated with our expanding DTC channel, resulting in negative and reduced net income in our seasonally low-revenue first and fourth quarters, respectively;
- impact of foreign exchange;
- fluctuations in average cost of borrowings to address growing net working capital requirements and higher seasonal borrowings in the first and second quarters of each fiscal year to address the seasonal nature of revenue;
- pre-store opening costs incurred, timing of leases signed, and opening of stores;
- the nature and timing of transaction costs in connection with secondary offerings of shares, the Baffin acquisition, and amendments to long-term debt agreements; and
- the proportion of taxable income in non-Canadian jurisdictions and changes to rates and tax legislation in those jurisdictions.

## NON-IFRS FINANCIAL MEASURES

The Company uses certain non-IFRS financial measures in this document and other documents, including EBIT, adjusted EBIT, adjusted EBIT margin, EBITDA, adjusted EBITDA, adjusted net income (loss), adjusted net income (loss) per basic and diluted share, constant currency revenue, net debt, net debt leverage, net working capital, net working capital turnover, and free operating cash flow. These financial measures are employed by the Company to measure its operating and economic performance and to assist in business decision-making, as well as providing key performance information to senior management. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, certain investors and analysts use this information to evaluate the Company's operating and financial performance. These financial measures are not defined under IFRS nor do they replace or supersede any standardized measure under IFRS. Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.

CAD \$ millions (except per share data)	For the year ended		Fourth quarter ended	
	March 28, 2021	March 29, 2020	March 28, 2021	March 29, 2020
EBIT	116.9	192.1	7.8	(17.2)
Adjusted EBIT	132.5	207.4	5.4	(9.7)
Adjusted EBIT margin	14.7 %	21.6 %	2.6 %	(6.9)%

CAD \$ millions	March 28, 2021	March 29, 2020
Net debt	(154.2)	(355.5)
Net working capital	202.1	327.1

*EBIT, adjusted EBIT, adjusted EBIT margin, EBITDA, adjusted EBITDA, adjusted net income (loss), and adjusted net income (loss) per basic and diluted share*

These non-IFRS measures exclude the impact of certain non-cash items and certain other adjustments related to events that are non-recurring or unusual in nature, including the COVID-19 pandemic, that we believe are not reflective of our ongoing operations and that make comparisons of underlying financial performance between periods difficult. We use, and believe that certain investors and analysts use, this information to evaluate our core financial and operating performance for business planning purposes, as well as to analyze how our business operates in, or responds to, swings in economic cycles or to other events that impact the apparel industry.

For the year ended March 28, 2021, we believe that identifying certain costs directly resulting from the impact of the COVID-19 pandemic and excluding these amounts from our calculation of the non-IFRS measures described above helps management and investors assess the impact

of COVID-19 on our business as well as our general economic performance during the period. For the year ended March 28, 2021, these primarily comprised overhead costs recognized during the temporary closure of our manufacturing facilities and temporary store closure costs including depreciation and interest expenses. These were partially offset by rent concessions and government subsidies recognized during the period.

#### *Constant currency revenue*

Constant currency revenue is calculated by translating the prior year reported amounts into comparable amounts using a single foreign exchange rate for each currency calculated based on the current period exchange rates. We use, and believe that certain investors and analysts use, this information to assess how our business and geographic segments performed excluding the effects of foreign currency exchange rate fluctuations. See the Revenue section of the “Results of Operations” for a reconciliation of reported revenue and revenue on a constant currency basis.

#### *Net debt and net debt leverage*

We define net debt as total indebtedness, net of cash, and net debt leverage as the ratio of net debt to adjusted EBITDA, measured on a spot basis. We use, and believe that certain investors and analysts use, these non-IFRS financial measures to determine the Company’s financial leverage and ability to meet its debt obligations. See “Financial Condition, Liquidity and Capital Resources - Indebtedness” below for a table providing the calculation of net debt and discussion of net debt leverage.

#### *Net working capital and net working capital turnover*

We define net working capital as current assets, net of cash, minus current liabilities, excluding the Short-term Borrowings and current portion of lease liabilities. Net working capital turnover is the ratio of average net working capital to revenue, by averaging net working capital for each quarter. We use, and believe that certain investors and analysts use, this information to assess the Company’s liquidity and management of net working capital resources. See “Financial Condition, Liquidity and Capital Resources” below for a table providing the calculation of net working capital.

#### *Free operating cash flow*

We define free operating cash flow as net cash flows from (used in) operating activities plus net cash flows from (used in) investing activities, minus principal payments on lease liabilities. We use, and believe that certain investors and analysts use, this information to assess the Company’s financial leverage and cash available for repayment of borrowings and other financing activities and as an indicator of operational financial performance. See “Cash Flows” below for a table providing the free operating cash flow balance for the year.

The tables below reconcile net income to EBIT, adjusted EBIT, EBITDA, adjusted EBITDA, and adjusted net income (loss) for the periods indicated. Adjusted EBIT margin is equal to adjusted EBIT for the period presented as a percentage of revenue for the same period.

CAD \$ millions	For the year ended		Fourth quarter ended

<b>Adjusted EBIT</b>	132.5	207.4	5.4	(9.7)
<i>Adjusted EBIT margin</i>	14.7 %	21.6 %	2.6 %	(6.9)%
<i>Add the impact of:</i>				
Depreciation and amortization <sup>(1)</sup>	84.6	63.1	22.8	19.1
<b>EBITDA<sup>(2)</sup></b>	201.5	255.2	30.6	1.9
<b>Adjusted EBITDA<sup>(3)</sup></b>	209.1	263.4	27.7	8.0

<sup>(1)</sup> Depreciation and amortization includes depreciation on right-of-use assets under IFRS 16, Leases.

<sup>(2)</sup> EBITDA is defined as earnings before interest, taxes, depreciation and amortization. We reported earnings before interest, taxes, depreciation and amortization, and rent expense (“EBITDAR”) in prior periods. EBITDAR has been replaced with EBITDA given the rent component used in the calculation of EBITDAR is not meaningful.

<sup>(3)</sup> Adjusted EBITDA is calculated as EBITDA, adjusted for items (a) to (f) but excluding \$0.4m and \$5.0m of net temporary store closure costs in (d), and \$0.1m and \$3.0m of pre-store opening costs in (e), for the fourth quarter and year ended March 28, 2021, respectively, compared to net temporary store closure costs of \$1.0m and \$1.0m and pre-store opening costs of \$0.4m and \$6.1m, for the fourth quarter and year ended March 29, 2020, respectively.

CAD \$ millions	For the year ended		Fourth quarter ended	
	March 28, 2021	March 29, 2020	March 28, 2021	March 29, 2020
<b>Net income</b>	70.2	151.7	2.9	2.5
<i>Add (deduct) the impact of:</i>				
Costs of the Baffin acquisition (a)	1.0	2.4	—	0.5
Unrealized foreign exchange (gain) loss on Term Loan Facility (b)	(1.7)	(1.6)	(3.1)	1.1
Transition of logistics agencies (c)	2.2	0.6	—	0.6
Net temporary store closure costs (d) (h)	9.0	1.9	0.9	2.0
Net excess overhead costs from temporary closure of manufacturing facilities (d)	4.3	1.2	—	1.2
Pre-store opening costs (e) (i)	6.0	9.4	0.6	0.7
Non-cash provision release (f)	(3.0)	—	—	—
Unrealized foreign exchange losses on de-designation of operational hedges (g)	—	1.7	—	1.7
Acceleration of unamortized costs on Term Loan Refinancing (j)	1.1	7.0	—	—
Restructuring expense (d)	1.7	—	—	—
Swiss tax reform (k)	—	(23.1)	—	(23.1)
Other	0.3	1.1	(0.4)	0.1
<b>Total adjustments</b>	<b>20.9</b>	<b>0.6</b>	<b>(2.0)</b>	<b>(15.2)</b>
Tax effect of adjustments	(5.0)	(5.1)	0.2	(0.6)
<b>Adjusted net income (loss)</b>	<b>86.1</b>	<b>147.2</b>	<b>1.1</b>	<b>(13.3)</b>

(a) Costs in connection with the Baffin acquisition and the impact of gross margin that would otherwise have been recognized on inventory recorded at net realizable value less costs to sell.

(b) Unrealized gains and losses on the translation of the Term Loan Facility from USD to CAD, net of the effect of derivative transactions entered into to hedge a portion of the exposure to foreign currency exchange risk.

(c) Costs incurred for the transition of logistics, warehousing, and freight forwarding agencies to enhance our global distribution structure.

- (d) Total government subsidies globally of \$0.4m and \$27.5m were recognized in the fourth quarter and year ended March 28, 2021, respectively. These subsidies were recorded as a reduction to the associated wage costs which the Company incurred; as a result government subsidies were recorded as a reduction to excess overhead costs from temporary closure of manufacturing facilities (\$nil and \$1.3m), temporary store closure costs (\$0.4m and \$1.8m), and restructuring expense (\$nil and \$0.4m), for the fourth quarter and year ended March 28, 2021, respectively. The benefit of \$0.4m and \$24.0m of government subsidies therefore remained in adjusted EBIT as a reduction to the associated wage costs for the fourth quarter and year ended March 28, 2021, respectively.
- (e) Costs incurred during pre-opening periods for new retail stores, including depreciation on right-of-use assets.
- (f) Release of a non-cash sales contract provision as a result of the expiration of the statute of limitations in the respective jurisdiction in the year ended March 28, 2021.
- (g) Represents unrealized losses on foreign exchange operational hedges deemed ineffective, a consequence of the COVID-19 pandemic.
- (h) Includes \$0.1m and \$1.5m of interest expense on lease liabilities for temporary store closures in the fourth quarter and year ended March 28, 2021, respectively.
- (i) Pre-store opening costs incurred in (e) above plus \$0.2m and \$0.8m of interest expense on lease liabilities for new retail stores during pre-opening periods in the fourth quarter and year ended March 28, 2021, respectively (fourth quarter and year ended March 29, 2020 - \$0.3m and \$1.2m, respectively).
- (j) The non-cash unamortized costs accelerated in connection with the amendments to the Term Loan Facility on October 7, 2020 and May 10, 2019.
- (k) Represents deferred tax asset recognized due to Swiss tax reform effective January 1, 2020.

## FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

### *Financial Condition*

The following table represents our net working capital<sup>(1)</sup> position as at March 28, 2021 and March 29, 2020:

<b>CAD \$ millions</b>	<b>March 28, 2021</b>	<b>March 29, 2020</b>	<b>\$ Change</b>	<b>% Change</b>
Current assets	896.9	531.8	365.1	68.7 %
Deduct: Cash	(477.9)	(31.7)	(446.2)	1,407.6 %
Current assets, net of cash	419.0	500.1	(81.1)	(16.2)%
Current liabilities	262.1	208.9	53.2	25.5 %
<i>Deduct the impact of:</i>				
Current portion of lease liabilities	(45.2)	(35.9)	(9.3)	25.9 %
Current liabilities, net of lease liabilities	216.9	173.0	43.9	25.4 %
Net working capital	202.1	327.1	(125.0)	(38.2)%

<sup>(1)</sup> See “Non-IFRS Financial Measures” for a description of these measures.

As at March 28, 2021, we had \$202.1m of net working capital compared to \$327.1m of net working capital as at March 29, 2020. The \$125.0m decrease, or 38.2%, was driven by a decrease in inventory levels of \$70.0m, a \$12.5m decrease in other current assets, a \$33.4m increase in accounts payable and accrued liabilities due to the extension of payment terms in response to COVID-19, and a \$4.4m increase in provisions. Net working capital turnover<sup>(1)</sup> was 32.0% in the year ended March 28, 2021.

## Cash Flows

The following table summarizes the Company's consolidated statement of cash flows for the year ended March 28, 2021 compared to the year ended March 29, 2020, and for the fourth quarter ended March 28, 2021 compared to the fourth quarter ended March 29, 2020.

CAD \$ millions	For the year ended			Fourth quarter ended		
	March 28, 2021	March 29, 2020	\$ Change	March 28, 2021	March 29, 2020	\$ Change
Total cash provided by (used in):

Financing activities	197.0	(58.7)	255.7	(17.3)	(6.6)	(10.7)
Effects of foreign currency exchange rate changes on cash	(12.5)	1.6	(14.1)	(7.6)	1.3	(8.9)
Increase (decrease) in cash	446.2	(56.9)	503.1	8.9	(40.3)	49.2
Cash, beginning of period	31.7	88.6	(56.9)	469.0	72.0	397.0
Cash, end of period	477.9	31.7	446.2	477.9	31.7	446.2
Free operating cash flow <sup>(1)</sup>	222.9	(24.5)	247.4	22.8	(42.6)	65.4

<sup>(1)</sup> See "Non-IFRS Financial Measures" for a description of this measure - and "Free operating cash flow" for a reconciliation to the nearest IFRS measure.

### Cash Requirements

Our primary need for liquidity is to fund net working capital, capital expenditures, debt services, and general corporate requirements of our business. Our primary source of liquidity to meet our cash requirements is cash generated from operating activities over our annual operating cycle. We also utilize our Short-term Borrowings, the Revolving Facility, and the Trade accounts receivable factoring program to provide short-term liquidity and to have funds available for net working capital. Our ability to fund our operations, invest in planned capital expenditures, meet debt obligations, and repay or refinance indebtedness depends on our future operating performance and cash flows, which are subject, but not limited to, prevailing economic, financial, and business conditions, some of which are beyond our control. Cash generated from operating activities is significantly impacted by the seasonality of our business. Historically, cash flows from operating activities have been highest in the third and fourth fiscal quarters of the fiscal year due to revenue from the DTC segment and the collection of receivables from wholesale revenue earlier in the year.

#### Cash flows from operating activities

Cash flows from operating activities were \$293.7m for the year ended March 28, 2021 compared to \$62.5m for the year ended March 29, 2020. The increase in cash from operating activities of \$231.2m was driven by favourable changes in working capital due to a decrease in inventories of \$208.8m resulting from limited production and an increase in accounts payable and accrued liabilities of \$22.6m due to the extension of payment terms.

Cash flows from operating activities was \$44.4m for the fourth quarter ended March 28, 2021 compared cash flows used in operating activities of \$19.2m for the fourth quarter ended March

29, 2020. The increase in cash from operating activities of \$63.6m was driven by favourable changes in working capital resulting from a decrease in inventories as described above.

*Cash flows used in investing activities*

Cash flows used in investing activities were \$32.0m for the year ended March 28, 2021 compared to \$62.3m for the year ended March 29, 2020. The decrease in cash flows used in investing activities of \$30.3m was primarily due to the extension of payment terms for capital expenditures on retail store construction and investments in information technology for the year ended March 28, 2021.

Cash flows used in investing activities were \$10.6m for the fourth quarter ended March 28, 2021 compared to cash flows used in investing activities of \$15.8m for the fourth quarter ended March 29, 2020. The decrease in cash flows used in investing activities of \$5.2m was primarily due to the extension of payment terms as described above for the fourth quarter ended March 28, 2021.

*Cash flows from (used in) financing activities*

Cash flows from financing activities were \$197.0m for the year ended March 28, 2021 compared to cash flows used in financing activities of \$58.7m for the year ended March 29, 2020. The increase in cash flows from financing activities of \$255.7m was driven by \$247.5m of higher gross borrowings due to the Term Loan Refinancing Amendment and \$38.7m of payments for the purchase and cancellation of subordinate voting shares in fiscal 2020. The increase was partially offset by \$14.1m in higher principal paid on lease liabilities.

Cash flows used in financing activities were \$17.3m for the fourth quarter ended March 28, 2021 compared to \$6.6m for the fourth quarter ended March 29, 2020. The increase in cash flows used in financing activities of \$10.7m was driven by \$7.1m of repayments on Short-term Borrowings.

*Free operating cash flow<sup>(1)</sup>*

The table below reconciles the cash flows from (used in) operating and investing activities, principal payments on lease liabilities to free operating cash flow.

CAD \$ millions	For the year ended		\$ Change	Fourth quarter ended		\$ Change
	March 28, 2021	March 29, 2020		March 28, 2021	March 29, 2020	
Total cash from (used in):						
Operating activities	293.7	62.5	231.2	44.4	(19.2)	63.6
Investing activities	(32.0)	(62.3)	30.3	(10.6)	(15.8)	5.2
<i>Add (deduct) the impact of:</i>						
Principal payments on lease liabilities	(38.8)	(24.7)	(14.1)	(11.0)	(7.6)	(3.4)
<b>Free operating cash flow<sup>(1)</sup></b>	<b>222.9</b>	<b>(24.5)</b>	<b>247.4</b>	<b>22.8</b>	<b>(42.6)</b>	<b>65.4</b>

<sup>(1)</sup> See "Non-IFRS Financial Measures" for a description of this measure.

Free operating cash flow increased to \$222.9m for the year ended March 28, 2021 from \$(24.5)m for the year ended March 29, 2020 due to improved cash flows from operating and

investing activities as described above, partially offset by higher principal paid on lease liabilities.

Free operating cash flow increased to \$22.8m for the fourth quarter ended March 28, 2021 from \$(42.6)m for the fourth quarter ended March 29, 2020 due to the factors described above.

### **Indebtedness**

The following table presents our net debt<sup>(1)</sup> as of March 28, 2021 and March 29, 2020.

<b>CAD \$ millions</b>	<b>March 28, 2021</b>	<b>March 29, 2020</b>	<b>\$ Change</b>
Cash	477.9	31.7	446.2
Short-term Borrowings	—	—	—
Revolving Facility	—	—	—
Term Loan Facility	(377.3)	(159.3)	(218.0)
Lease liabilities	(254.8)	(227.9)	(26.9)
Net debt <sup>(1)</sup>	(154.2)	(355.5)	201.3

<sup>(1)</sup> See “Non-IFRS Financial Measures” for a description of this measure.

As at March 28, 2021, net debt was \$154.2m compared to \$355.5m as at March 29, 2020. The decrease of \$201.3m was driven by a significant improvement in our cash position of \$446.2m, partially offset by higher borrowings of \$218.0m under the Term Loan Facility due to the Refinancing Amendment and an increase of \$26.9m in lease liabilities. Net debt leverage<sup>(1)</sup> as at March 28, 2021 was 0.7 times adjusted EBITDA.

### **Short-term Borrowings**

On July 18, 2019, a subsidiary of the Company in Greater China entered into an uncommitted loan facility in the amount of RMB 160.0m. The facility includes a non-financial bank guarantee facility in the amount of RMB 10.0m. The term of each draw on the loan is one, three or six months or such other period as agreed upon and shall not exceed twelve months (including any extension or rollover). The interest rate is equal to 105% of the applicable People's Bank of China Benchmark Lending Rate and payable at one, three or six months, depending on the term of each draw. The facility is guaranteed by the Company and proceeds drawn on the facility will be used to support working capital requirements. As at March 28, 2021, the Company had no amount owing on the facility (March 29, 2020 - \$nil).

### **Revolving Facility**

The Company has an agreement with a syndicate of lenders for a senior secured asset-based Revolving Facility consisting of (i) a revolving credit facility in the amount of \$417.5m (the “Existing Revolving Facility”) with an increase in commitments to \$467.5m during the peak season (June 1 - November 30) (February 24, 2020 to May 25, 2020 - \$467.5m with an increase to \$517.5m during the peak season, May 10, 2019 to February 23, 2020 - \$300.0m with an increase to \$350.0m during the peak season), and (ii) a first-in, last-out (“FILO”) Revolving Facility in the amount of \$50.0m (the “FILO Revolving Facility”). The revolving credit commitment also includes a letter of credit commitment in the amount of \$25.0m, with a \$5.0m sub-commitment for letters of credit issued in a currency other than Canadian dollars, U.S. dollars, euros or British pounds sterling, and a swingline commitment for \$25.0m. Amounts owing under the Revolving Facility can be drawn in Canadian dollars, U.S. dollars, euros, British pounds sterling or other currencies. The Revolving Facility matures on June 3, 2024 and the FILO Revolving Facility matures on May 25, 2021. Amounts owing under the Revolving Facility may be borrowed, repaid and re-borrowed for general corporate purposes.

Loans under the Revolving Facility, at our option, may be maintained from time to time as (a) Prime Rate Loans, which bear interest at a rate per annum equal to the Applicable Margin for Prime Rate Loans plus the Prime Rate, (b) Banker's Acceptances funded on a discounted proceeds basis given the published discount rate plus a rate per annum equal to the Applicable Margin for stamping fees, (c) ABR Loans, which bear interest at a rate per annum equal to the Applicable Margin for ABR Loans plus the ABR, (d) European Base Rate Loans, which bear interest at a rate per annum equal to the Applicable Margin for European Base Rate Loans plus the European Base Rate, (e) LIBOR Loans, which bear interest at a rate per annum equal to the Applicable Margin for LIBOR Loans plus the LIBOR Rate or (f) EURIBOR Loans, which bear interest at a rate per annum equal to the Applicable Margin for EURIBOR Loans plus the applicable EURIBOR.

A commitment fee will be charged on the average daily unused portion of the Revolving Facility of 0.25% per annum if average utilization under the Revolving Facility is greater than 50% or 0.375% if average utilization under the Revolving Facility is less than 50%. A letter of credit fee, with respect to standby letters of credit, will accrue on the aggregate face amount of outstanding letters of credit under the Revolving Facility equal to the Applicable Margin for LIBOR Loans, and, with respect to trade or commercial letters of credit, 50% of the then Applicable Margin on LIBOR Loans. A fronting fee will be charged on the aggregate face amount of outstanding letters of credit equal to 0.125% per annum. In addition, we pay the administrative agent under the Revolving Facility a monitoring fee of one thousand dollars per month.

As at March 28, 2021 and March 29, 2020, the Company had repaid all amounts owing on the revolving facility and related deferred financing charges in the amounts of \$1.7m and \$1.7m, respectively, were included in other long-term liabilities. The Revolving Facility contains financial and non-financial covenants which could impact the Company's ability to draw funds. As at and during the years ended March 28, 2021 and March 29, 2020, the Company was in compliance with all covenants.

The Company had unused borrowing capacity available under the Revolving Facility of \$181.2m as at March 28, 2021 (March 29, 2020 - \$226.6m).

As at March 28, 2021, the Company had letters of credit outstanding under the Revolving Facility of \$5.0m (March 29, 2020 - \$5.7m).

#### *Amendments to Revolving Facility*

On May 26, 2020, the Company entered into a further amendment to the Revolving Facility to increase its ability to borrow against the borrowing base by up to \$50.0m. Borrowings under the Existing Revolving Facility were transferred to the FILO Revolving Facility on the transaction date and future amounts are drawn in priority on the FILO Revolving Facility. Amounts drawn on the FILO Revolving Facility are subject to an interest rate charge that is 2.00% higher than the Existing Revolving Facility. The FILO Revolving Facility matures on May 25, 2021 and upon maturity, the credit commitments on the Existing Revolving Facility will be restored, resulting in no net change in aggregate commitments under the Revolving Facility. Transaction costs are amortized over the term of the facility.

#### *Term Loan Facility*

The Company has a senior secured loan agreement with a syndicate of lenders that is secured on a split collateral basis alongside the Revolving Facility, with an aggregate principal amount owing of US\$300.0m. The Term Loan Facility bears interest at a rate of LIBOR plus an applicable margin of 4.25%, provided that LIBOR may not be less than 0.75%, payable quarterly in arrears. The Term Loan Facility matures on October 7, 2027 and US\$0.8m of the principal amount is repayable quarterly commencing on March 31, 2021.

As the Term Loan Facility is denominated in U.S. dollars, the Company remeasures the outstanding balance in Canadian dollars at each balance sheet date. As at March 28, 2021, we had an \$377.3m aggregate principal amount outstanding under the Term Loan Facility (March 29, 2020 - \$159.3m). The difference in amounts in these periods is the result of increased gross borrowings, a result of the amendment mentioned below, as well as the change in the CAD:USD exchange rate.

Voluntary prepayments of amounts owing under the Term Loan Facility may be made at any time without premium or penalty (except LIBOR breakage costs and a call premium in the case of certain repricing events prior to April 7, 2021), but once repaid may not be reborrowed. The Company has pledged substantially all of its assets as collateral for the Term Loan Facility. The Term Loan Facility contains financial and non-financial covenants which could impact the Company's ability to draw funds. As at and during the years ended March 28, 2021 and March 29, 2020, the Company was in compliance with all covenants.

#### *Amendment to the Term Loan Facility*

On October 7, 2020, the Company entered into a Refinancing Amendment to the Term Loan Facility (the "Refinancing Amendment") to increase the aggregate principal amount to US\$300.0m from US\$113.8m. The Company accounted for the amendment as a debt extinguishment due to the significant changes to the terms. As a result, deferred financing costs of \$1.1 million on the existing Term Loan Facility were written-off. In connection with the amendment, the Company incurred transaction costs of US\$4.7m and an original issue discount of US\$3.0m, which are being amortized using the effective interest rate method over the new term to maturity.

#### *Lease Liabilities*

The Company had \$254.8m (March 29, 2020 - \$227.9m) of lease liabilities as at March 28, 2021, of which \$45.2m (March 29, 2020 - \$35.9m) are due within one year. Lease liabilities represent the discounted amount of future payments under leases for right-of-use assets.

#### *Capital Management*

The Company manages its capital, which consists of equity (subordinate voting shares and multiple voting shares), Short-term Borrowings, and long-term debt (the Revolving Facility and the Term Loan Facility), with the objectives of safeguarding sufficient net working capital<sup>(1)</sup> over the annual operating cycle and providing sufficient financial resources to grow operations to meet long-term consumer demand. Management targets a ratio of net debt<sup>(1)</sup> to adjusted EBITDA<sup>(1)</sup>, reflecting the seasonal change in the business as net working capital builds through the second fiscal quarter. The Board of Directors of the Company monitors the Company's capital management on a regular basis. We will continually assess the adequacy of the Company's capital structure and capacity and make adjustments within the context of the Company's strategy, economic conditions, and risk characteristics of the business.

<sup>(1)</sup> See "Non-IFRS Financial Measures" for a description of these measures.

### *Contractual Obligations*

The following table summarizes certain of our significant contractual obligations and other obligations as at March 28, 2021:

<b>CAD \$ millions</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2025</b>	<b>2026</b>	<b>Thereafter</b>	<b>Total</b>
Accounts payable and accrued liabilities	177.8	—	—	—	—	—	177.8
Term loan	3.8	3.8	3.8	3.8	3.8	358.3	377.3
Interest commitments relating to borrowings <sup>(1)</sup>	18.9	18.9	18.9	18.9	18.9	28.3	122.8
Foreign exchange forward contracts	2.9	—	—	—	14.4	—	17.3
Lease obligations	57.1	53.6	46.9	44.5	33.9	69.3	305.3
Pension obligation	—	—	—	—	—	2.1	2.1
<b>Total contractual obligations</b>	<b>260.5</b>	<b>76.3</b>	<b>69.6</b>	<b>67.2</b>	<b>71.0</b>	<b>458.0</b>	<b>1,002.6</b>

<sup>(1)</sup> *Interest commitments are calculated based on the Term Loan Facility balance at the interest rate of 5.00% as at March 28, 2021.*

As at March 28, 2021, we had additional liabilities which included provisions for warranty, sales returns, asset retirement obligations, and deferred income tax liabilities. These liabilities have not been included in the table above as the timing and amount of future payments are uncertain.

### ***Off-Balance Sheet Arrangements***

The Company uses off-balance sheet arrangements including letters of credit and guarantees in connection with certain obligations, including leases. The Company in Europe also entered into an agreement to factor, on a limited recourse basis, certain of its trade accounts receivable up to a limit of €20.0m in exchange for advanced funding equal to 100% of the principal value of the invoice. Refer to the “Credit risk” section of this MD&A for additional details on the Trade accounts receivable factoring program. Other than those items disclosed here and elsewhere in this MD&A and our financial statements, we did not have any material off-balance sheet arrangements or commitments as at March 28, 2021.

#### *Letter of guarantee facility*

On April 14, 2020, Canada Goose Inc. entered into a letter of guarantee facility with HSBC Bank Canada in the amount of \$10.0m. Letters of guarantee are available for terms of up to twelve months and will be charged a fee equal to 1.2% per annum calculated against the face amount and over the term of the guarantee. Amounts issued on the facility will be used to finance working capital requirements through letters of guarantee, standby letters of credit, performance bonds, counter guarantees, counter standby letters of credit, or similar credits. The Company shall immediately reimburse the issuing bank for amounts drawn on issued letters of guarantees. As at March 28, 2021, the Company had \$4.5m outstanding in connection with our leases.

### ***Outstanding Share Capital***

Canada Goose is a publicly traded company and the subordinate voting shares are listed on the New York Stock Exchange (NYSE: GOOS) and on the Toronto Stock Exchange (TSX: GOOS). As at May 7, 2021, there were 59,435,079 subordinate voting shares issued and outstanding, and 51,004,076 multiple voting shares issued and outstanding.

As at May 7, 2021, there were 2,498,851 options and 136,570 restricted share units outstanding under the Company’s equity incentive plans, of which 833,487 options were vested as of such

date. Each option is exercisable for one subordinate voting share. We expect that vested restricted share units will be paid at settlement through the issuance of one subordinate voting share per restricted share unit.

## **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to certain market risks arising from transactions in the normal course of our business. Such risk is principally associated with credit risk, foreign exchange risk and interest rate risk.

### ***Credit risk***

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Credit risk arises from the possibility that certain parties will be unable to discharge their obligations. The Company manages its credit risk through a combination of third party credit insurance and internal house risk. Credit insurance is provided by a third party for customers and is subject to continuous monitoring of the credit worthiness of the Company's customers. Insurance covers a specific amount of revenue, which may be less than the Company's total revenue with a specific customer. As at March 28, 2021, accounts receivable totaling approximately \$5.7m (March 29, 2020 - \$20.1m) were insured, under a maximum credit limit of \$30.0m.

Credit insurance is subject to continuous review by the insurer and can be reduced or eliminated if, in the view of the insurer, the customer's credit worthiness has deteriorated. Upon receiving notification of credit insurance limit modifications, credit insurance remains in place for 60 days. During the year ended March 28, 2021, the Company experienced significant reductions in the market availability of credit insurance for a number of its customers.

Complementary to the third party insurance, the Company routinely assesses the financial strength of its customers through a combination of third party financial reports, credit monitoring, publicly available information, and direct communication with those customers. The Company establishes payment terms with customers to mitigate credit risk and continues to closely monitor its accounts receivable credit risk exposure.

Customer deposits are received in advance from certain customers for seasonal orders to further mitigate credit risk, and applied to reduce accounts receivable when goods are shipped. As at March 28, 2021, customer deposits of \$1.6m (March 29, 2020 - \$2.1m) were included in accounts payable and accrued liabilities.

The aging of trade receivables was as follows:

CAD \$ millions	Total	Current	Past due		
			< 30 days	31-60 days	> 61 days
	\$	\$	\$	\$	\$
Trade accounts receivable	21.9	9.0	5.4	1.4	6.1
Credit card receivables	2.1	2.1	—	—	—
Government grant receivable	4.4	4.4	—	—	—
Other receivables	14.3	14.3	—	—	—
<b>March 28, 2021</b>	<b>42.7</b>	<b>29.8</b>	<b>5.4</b>	<b>1.4</b>	<b>6.1</b>
Trade accounts receivable	26.9	15.9	5.0	2.5	3.5
Credit card receivables	2.1	2.1	—	—	—
Other receivables	5.1	5.1	—	—	—
<b>March 29, 2020</b>	<b>34.1</b>	<b>23.1</b>	<b>5.0</b>	<b>2.5</b>	<b>3.5</b>

#### *Trade accounts receivable factoring program*

On December 23, 2019, a subsidiary of the Company in Europe entered into an agreement to factor, on a limited recourse basis, certain of its trade accounts receivable up to a limit of €20.0m in exchange for advanced funding equal to 100% of the principal value of the invoice. Accepted currencies include euros, British pounds sterling, and Swiss francs. The Company is charged a fee of the applicable EURIBOR or LIBOR reference rate plus 1.15% per annum, based on the number of days between the purchase date and the invoice due date, which is lower than the Company's average borrowing rate under the Revolving Facility. The program is utilized to provide sufficient liquidity to support its international operating cash needs. Upon transfer of the receivables, the Company receives cash proceeds and continues to service the receivables on behalf of the third-party financial institution. The program meets the derecognition requirements in accordance with IFRS 9, *Financial Instruments* as the Company transfers substantially all the risks and rewards of ownership upon the sale of a receivable. These proceeds are classified as cash flows from operating activities in the statement of cash flows.

For the year ended March 28, 2021, the Company received cash proceeds from the sale of trade accounts receivable with carrying values of \$16.9m which were derecognized from the Company's statement of financial position. Fees of less than \$0.1m were incurred during the year ended March 28, 2021 (year ended March 29, 2020 - less than \$0.1m) and included in net interest, finance and other costs in the statement of income. As at March 28, 2021, the outstanding amount of trade accounts receivable derecognized from the Company's statement of financial position, but which the Company continued to service, was \$nil (March 29, 2020 - \$2.4m).

#### **Foreign exchange risk**

##### *Foreign exchange risk in operating cash flows*

Our Annual Financial Statements are expressed in Canadian dollars, but a portion of the Company's net assets are denominated in foreign currencies, primarily U.S. dollars, euros, British pounds sterling, Swiss francs, Chinese yuan, and Hong Kong dollars through its foreign

operations in the U.S., U.K., France, Switzerland, Hong Kong, and China. Furthermore, as our business in Greater China grows, transactions in Chinese yuan and Hong Kong dollar will increase. Net monetary assets denominated in currencies other than Canadian dollars that are held in entities with Canadian dollar functional currency are translated into Canadian dollars at the foreign currency exchange rate in effect at the balance sheet date. As a result, we are exposed to foreign currency translation gains and losses. Revenues and expenses of all foreign operations are translated into Canadian dollars at the foreign currency exchange rates that approximate the rates in effect at the dates when such items are recognized. Appreciating foreign currencies relative to the Canadian dollar will positively impact operating income and net income by increasing our revenue, while depreciating foreign currencies relative to the Canadian dollar will have the opposite impact.

We are also exposed to fluctuations in the prices of U.S. dollar denominated purchases as a result of changes in U.S. dollar exchange rates. A depreciating Canadian dollar relative to the U.S. dollar will negatively impact operating income and net income by increasing our costs of raw materials, while an appreciating Canadian dollar relative to the U.S. dollar will have the opposite impact.

The Company has entered into forward foreign exchange contracts to reduce the foreign exchange risk to fluctuations in the U.S. dollar, euro, British pound sterling, Swiss franc, Chinese yuan, and Hong Kong dollar exchange rates for revenues and purchases. Certain forward foreign exchange contracts were designated at inception and accounted for as cash flow hedges. The operating hedge program for the fiscal year ending March 28, 2021 was initiated during the fourth quarter of fiscal 2019.

In the fourth quarter of fiscal 2020, the Company recognized \$1.7m of unrealized losses on foreign exchange hedges deemed ineffective as a result of uncertainties in our future cash flows among our foreign operations.

The Company recognized the following unrealized losses in the fair value of derivatives designated as cash flow hedges in other comprehensive income:

CAD \$ millions	For the year ended				Fourth quarter ended			
	March 28, 2021		March 29, 2020		March 28, 2021		March 29, 2020	
	Net loss	Tax expense	Net loss	Tax recovery	Net loss	Tax expense	Net loss	Tax recovery
	\$	\$	\$	\$	\$	\$	\$	\$
Forward foreign exchange contracts designated as cash flow hedges	(0.3)	(1.1)	(3.7)	1.1	(1.5)	(0.6)	(4.9)	2.6

The Company reclassified the following losses and gains from other comprehensive income on derivatives designated as cash flow hedges to locations in the consolidated financial statements described below:

	For the year ended		Fourth quarter ended	
	March 28, 2021	March 29, 2020	March 28, 2021	March 29, 2020
<b>Loss (gain) from other comprehensive income</b>	\$	\$	\$	\$
Forward foreign exchange contracts designated as cash flow hedges				
Revenue	3.3	(0.2)	3.3	—
SG&A expenses	(0.2)	1.0	(2.1)	(1.7)
Inventory	(0.9)	0.1	(0.7)	(0.3)

For the fourth quarter and year ended March 28, 2021, unrealized gains of \$1.5m and \$6.4m, respectively (for the fourth quarter and year ended March 29, 2020 - unrealized losses of \$5.0m and \$3.2m, respectively) on forward exchange contracts that were not treated as hedges were recognized in SG&A expenses in the statement of income.

Foreign currency contracts outstanding as at March 28, 2021 related to operating cash flows were:

(in millions)	Aggregate Amounts		Currency
Forward contract to purchase Canadian dollars	US\$	75.7	U.S. dollars
	€	48.2	euros
Forward contract to sell Canadian dollars	US\$	40.3	U.S. dollars
	€	36.2	euros
Forward contract to purchase euros	CNY	259.6	Chinese yuan
	£	19.7	British pounds sterling
	HKD	43.3	Hong Kong dollars
	SEK	0.1	Swedish kronor
Forward contract to sell euros	CHF	0.6	Swiss francs
	CNY	2.3	Chinese yuan
	£	2.0	British pounds sterling

#### *Foreign exchange risk on borrowings*

Amounts available for borrowing under Short-term Borrowings and part of our Revolving Facility are denominated in Chinese renminbi and U.S. dollars, respectively. As at March 28, 2021, there were no amounts owing under both Short-term Borrowings and the Revolving Facility.

Amounts available for borrowing under the Term Loan Facility are denominated in U.S. dollars. Based on our outstanding balances of \$377.3m (US\$300.0m) under the Term Loan Facility as at March 28, 2021, a \$0.01 depreciation in the value of the Canadian dollar compared to the U.S. dollar would have resulted in a decrease in our pre-tax income of \$3.0m solely as a result of that exchange rate fluctuation's effect on the debt.

The Company hedges a portion of its exposure to foreign currency exchange risk on principal and interest payments related to its U.S. dollar denominated Term Loan Facility.

The Company recognized the following unrealized losses and gains in the fair value of derivatives designed as hedging instruments in other comprehensive income:

CAD \$ millions	For the year ended				Fourth quarter ended			
	March 28, 2021		March 29, 2020		March 28, 2021		March 29, 2020	
	Net (loss) gain	Tax recovery (expense)	Net gain (loss)	Tax expense	Net gain	Tax expense	Net gain (loss)	Tax (expense) recovery
	\$	\$	\$	\$	\$	\$	\$	\$
Swaps designated as cash flow hedges	(0.9)	(0.5)	1.3	(0.2)	3.9	(1.3)	1.5	(0.2)
Euro-denominated cross-currency swap designated as a net investment hedge	0.2	0.1	(0.3)	(0.2)	—	—	(1.4)	0.1

The Company reclassified the following losses and gains from other comprehensive income on derivatives designated as hedging instruments to SG&A expenses:

CAD \$ millions	For the year ended		Fourth quarter ended	
	March 28, 2021	March 29, 2020	March 28, 2021	March 29, 2020
<b>Loss (gain) from other comprehensive income</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Swaps designated as cash flow hedges	5.6	(5.3)	0.3	(6.3)

For the fourth quarter and year ended March 28, 2021, unrealized losses of \$5.3m and \$21.7m, respectively (for the fourth quarter and year ended March 29, 2020 - unrealized gains of \$2.5m and \$3.3m, respectively) in the fair value of the long-dated forward exchange contract related to a portion of the term loan balance were recognized in SG&A expenses in the statement of income.

The Company enters into derivative transactions to hedge a portion of its exposure to foreign currency exchange risk and interest rate risk related to the Term Loan Facility denominated in U.S. dollars. Following the refinancing of the Term Loan Facility on October 7, 2020, the cross-currency swap designated and accounted for as a cash flow hedge in relation to the previous term loan was deemed ineffective; however, the other designated hedge transactions remained effective.

On October 30, 2020, the Company terminated its existing derivative contracts associated with the previous Term Loan Facility and entered into new derivative transactions to better align with the refinancing amendment to the Term Loan Facility. The Company entered into a five-year interest rate swap by selling US\$270.0m, floating rate debt bearing interest at LIBOR plus an applicable margin 4.25% as measured on the trade date, provided that LIBOR may not be less than 0.75%, for a fixed rate debt bearing interest at a rate of 5.20%. The interest rate swap was designated at inception and accounted for as a cash flow hedge, and to the extent that the hedge remains effective, unrealized gains and losses will be included in other comprehensive income until reclassified to the statement of income as the hedged interest payments and principal repayments (or periodic remeasurements) impact net income.

The Company also entered into a five-year forward exchange contract by selling \$368.5m and receiving US\$270.0m as measured on the trade date, to fix the foreign exchange risk on a portion of the Term Loan Facility borrowings. Unrealized gains and losses in the fair value of the forward contract are recognized in SG&A expenses in the statement of income, which offset the unrealized gains and losses recognized on the principal of the Term Loan Facility that are also recognized in SG&A expenses.

### ***Interest rate risk***

We are exposed to interest rate risk related to the effect of interest rate changes on borrowings outstanding under our Short-term Borrowings, Revolving Facility, and Term Loan Facility. As at March 28, 2021, the Company had \$377.3m outstanding under the Term Loan Facility which currently bears interest at 5.00%. As at March 28, 2021, the Company had repaid all amounts owing on our Short-term Borrowings and Revolving Facility. Based on the weighted average amount of outstanding borrowings on our Short-term Borrowings during the year ended March 28, 2021, a 1.00% increase in the average interest rate on our borrowings would have increased interest expense by \$0.1m (year ended March 29, 2020 - less than \$0.1m). Correspondingly, a 1.00% increase in the average interest rate would have increased interest expense on the Revolving Facility and Term Loan Facility by \$1.1m and \$2.6m, respectively (year ended March 29, 2020 - \$0.9m and \$1.5m, respectively). Interest rate risk on the Term Loan Facility is partially mitigated by cross-currency swap hedges. The impact on future interest expense as a result of future changes in interest rates will depend largely on the gross amount of our borrowings at that time.

### **RELATED PARTY TRANSACTIONS**

The Company enters into transactions from time to time with its principal shareholders and organizations affiliated with members of the Board of Directors by incurring expenses for business services. During the year ended March 28, 2021, the Company incurred expenses with related parties of \$1.2m (year ended March 29, 2020 - \$1.7m) from companies related to certain shareholders. Net balances owing to related parties as at March 28, 2021 were \$0.3m (March 29, 2020 - \$0.4m).

A lease liability due to the controlling shareholder of the acquired Baffin Inc. business (the "Baffin Vendor") for leased premises was \$4.6m as at March 28, 2021 (March 29, 2020 - \$5.3m). During the year ended March 28, 2021, the Company paid principal and interest on the lease liability, net of rent concessions, and other operating costs to entities affiliated with the Baffin Vendor totaling \$1.2m (year ended March 29, 2020 - \$1.4m). No amounts were owing to Baffin entities as at March 28, 2021 and March 29, 2020. Furthermore, \$3.0m was paid to the Baffin Vendor on November 1, 2020 and charged to expense over two years.

For a discussion of additional related party transactions see Item 7B. — "Major Shareholders and Related Party Transactions" — "Related Party Transactions".

#### ***Terms and conditions of transactions with related parties***

Transactions with related parties are conducted on terms pursuant to an approved agreement, or are approved by the Board of Directors of the Company.

### *Key management compensation*

Key management consists of the Board of Directors, the President and Chief Executive Officer and the executives who report directly to the President and Chief Executive Officer.

<b>CAD \$ millions</b>	<b>March 28, 2021</b>	<b>March 29, 2020</b>
Short term employee benefits	13.2	9.1
Long term employee benefits	0.1	0.1
Share-based compensation	8.6	5.9
<b>Compensation expense</b>	<b>21.9</b>	<b>15.1</b>

### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Our Annual Financial Statements have been prepared in accordance with IFRS as issued by the IASB. The preparation of our financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. While our significant accounting policies are more fully described in the notes to our Annual Financial Statements, we believe that the following accounting policies and estimates are critical to our business operations and understanding our financial results.

The following are the accounting policies subject to judgments and key sources of estimation uncertainty that we believe could have the most significant impact on the amounts recognized in the Annual Financial Statements.

*Revenue recognition.* Revenue comprises DTC, Wholesale, and Other segment revenues. Revenue is measured at the amount of consideration to which the Company expects to be entitled in exchange for the sale of goods in the ordinary course of the Company's activities. Revenue is presented net of sales tax, estimated returns, sales allowances, and discounts. The Company recognizes revenue when the Company has agreed terms with its customers, the contractual rights and payment terms have been identified, the contract has commercial substance, it is probable that consideration will be collected by the Company, and when control of the goods is transferred to the customer have been met.

It is the Company's policy to sell merchandise through the DTC segment with a limited right to return, typically within 30 days. Accumulated experience is used to estimate and provide for such returns.

*Inventories.* Inventories are carried at the lower of cost and net realizable value which requires us to use estimates related to fluctuations in obsolescence, shrinkage, future retail prices, seasonality and costs necessary to sell the inventory.

We periodically review our inventories and make provisions as necessary to appropriately value obsolete or damaged raw materials and finished goods. In addition, as part of inventory valuations, we accrue for inventory shrinkage for lost or stolen items based on historical trends from actual physical inventory counts.

*Leases.* We exercise judgment when contracts are entered into that may give rise to a right-of-use asset that would be accounted for as a lease. Judgment is required in determining the appropriate lease term on a lease by lease basis. We consider all facts and circumstances that create an economic incentive to exercise a renewal option or to not exercise a termination option at inception and over the term of the lease, including investments in major leaseholds, operating performance, and changed circumstances. The periods covered by renewal or

termination options are only included in the lease term if we are reasonably certain to exercise that option. Changes in the economic environment or changes in the retail industry may impact the assessment of the lease term.

We determine the present value of future lease payments by estimating the incremental borrowing rate specific to each leased asset or portfolio of leased assets. We determine the incremental borrowing rate of each leased asset or portfolio of leased assets by incorporating our creditworthiness, the security, term, and value of the underlying leased asset, and the economic environment in which the leased asset operates. The incremental borrowing rates are subject to change mainly due to macroeconomic changes in the environment.

*Impairment of non-financial assets (goodwill, intangible assets, right-of-use assets and property, plant and equipment).* We are required to use judgment in determining the grouping of assets to identify their cash generating units (“CGU”) for the purposes of testing fixed assets for impairment. Judgment is further required to determine appropriate groupings of CGUs for the level at which goodwill and intangible assets are tested for impairment. For the purpose of goodwill impairment testing, CGUs are grouped at the lowest level at which goodwill is monitored for internal management purposes. For the purpose of intangible assets’ impairment testing, intangible assets are assessed at the CGU level. In addition, judgment is used to determine whether a triggering event has occurred requiring an impairment test to be completed.

In determining the recoverable amount of a CGU or a group of CGUs, various estimates are employed. We determine value-in-use by using estimates including projected future revenues, earnings, working capital, and capital investment consistent with strategic plans presented to the board of directors of the Company. Discount rates are consistent with external industry information reflecting the risk associated with the specific cash flows.

*Income and other taxes.* Current and deferred income taxes are recognized in the consolidated statements of income and comprehensive income, except when it relates to a business combination, or items recognized in equity or in other comprehensive income. Application of judgment is required regarding the classification of transactions and in assessing probable outcomes of claimed deductions including expectations about future operating results, the timing and reversal of temporary differences and possible audits of income tax and other tax filings by the tax authorities in the various jurisdictions in which the Company operates.

*Warranty.* The critical assumptions and estimates used in determining the warranty provision at the balance sheet date are: number of jackets expected to require repair or replacement; proportion to be repaired versus replaced; period in which the warranty claim is expected to occur; cost of repair; cost of jacket replacement; and risk-free rate used to discount the provision to present value. We review our inputs to this estimate on a quarterly basis to ensure the provision reflects the most current information regarding our products.

## **CHANGES IN ACCOUNTING POLICIES**

### *Standards issued and adopted*

#### *Leases - COVID-19 Rent Concessions*

In May 2020, the IASB issued an amendment to IFRS 16, *Leases* exempting lessees from determining whether COVID-19 related rent concessions are lease modifications. The amendment is effective for annual reporting periods beginning on or after June 1, 2020 and earlier application is permitted. In accordance with the guidance issued, the Company adopted the amendment effective March 30, 2020 and elected not to treat COVID-19 related rent concessions as lease modifications. Rent concessions of \$4.1m were recognized in the statement of income for the year ended March 28, 2021 and the Company will consider seeking further rent concessions as it continues to monitor the impact of COVID-19.

### *Standards issued and not yet adopted*

Certain new standards, amendments, and interpretations to existing IFRS standards have been published but are not yet effective and have not been adopted early by the Company. Management anticipates that pronouncements will be adopted in the Company's accounting policy for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments, and interpretations is provided below.

In January 2020, the IASB issued an amendment to IAS 1, *Presentation of Financial Statements* to clarify its requirements for the presentation of liabilities in the statement of financial position. The limited scope amendment affected only the presentation of liabilities in the statement of financial position and not the amount or timing of its recognition. The amendment clarified that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period and specified that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. It also introduced a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendment is effective for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted. The Company is assessing the potential impact of the amendment.

## **SUBSEQUENT EVENTS**

### *Amendment to the Term Loan Facility*

On April 9, 2021, the Company entered into a repricing amendment to the Term Loan Facility to decrease the interest to a rate of LIBOR plus an applicable margin of 3.50% from LIBOR plus an applicable margin of 4.25%. As a result of the repricing amendment, there were no changes to the following conditions from the existing Term Loan Facility: a) the aggregate principal amount of US\$300.0m; b) the maturity date of October 7, 2027; c) LIBOR may not be less than 0.75%, and; d) existing derivative contracts entered into on October 30, 2020.

## **INTERNAL CONTROL OVER FINANCIAL REPORTING**

### **Disclosure Controls and Procedures**

Management, including the CEO and CFO, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based on that evaluation, the CEO and CFO concluded that such disclosure controls and procedures were effective as at March 28, 2021 to provide reasonable assurance that the information required to be disclosed by the Company in reports it files is recorded, processed, summarized and reported, within the appropriate time periods and is accumulated and communicated to management, as appropriate to allow timely decisions regarding required disclosure.

### **Internal Control Over Financial Reporting**

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, the CEO and the CFO and effected by the Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards. The Company's internal control over financial reporting includes policies and procedures that:

- Pertain to the maintenance of records that accurately and fairly reflect, in reasonable detail, the transactions and dispositions of assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS and that the receipts and expenditures of the Company are made only in accordance with authorizations of management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the assets of the Company that could have a material effect on the consolidated financial statements.

There has been no change in the Company's internal control over financial reporting during the year ended March 28, 2021 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. Management determined that the Company's internal control over financial reporting was effective as of March 28, 2021.

### **Limitations of Controls and Procedures**

Due to its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Management's projections of any evaluation of the effectiveness of internal control over financial reporting as to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
